Environmental Policy Statement

The Guide uses the ISO 14001 Standard as a model for an EMS.

Linden-Bauer Ltd recognises that their activities have environmental implications and is committed to minimising the impact of its activities on the environment.

The key points of its strategy to achieve this are: -

- a) Minimise waste by evaluating operations and ensuring they are as efficient as possible;
- b) Actively promote recycling both internally and amongst its customers and suppliers;
- c) Source and promote a product range to minimise the environmental impact of both production and distribution;
- d) Meet or exceed all the environmental legislation that relates to the Company;
- e) Implement a training program for its staff to raise awareness of environmental issues and enlist their support in improving the Company's performance;
- f) Encourage the adoption of similar principles by its suppliers.

It is therefore the policy of the Company to: -

- a) Aspire to reduce environmental damage and increase, where possible, opportunities for environmental gain;
- b) Comply with legal requirements;
- c) Encourage all employees and subcontractors to avoid and prevent environmental damage and to act as good neighbours to those affected by building and construction activities;
- d) Provide and exhibit this policy and such written instructions as are necessary to aid the implementation of this policy;

Environmental Policy Statement

e) Review this policy at 12 monthly intervals.

For the implementation of this policy the following organisation and arrangements apply, the senior management will be responsible for the implementation of the Company Environmental Policy, and will ensure that:

- a) All works are carried out in accordance with all relevant acts, regulations, and Company policy and procedures, as defined in the Safety Plans and other Company / Safety consultant instructions;
- b) Waste is removed in accordance with the legislation by registered carriers to licensed tips;
- c) Measures are taken to control ground and river pollution;
- d) Measures are taken to control noise levels;
- e) A good neighbour policy is implemented;
- f) Comply with international protocol by ensuring that ozone depleting gases such as CFC's and Halons are not discharged into the atmosphere;
- g) All materials wastage is minimised, recycling options promoted and water, paper and energy conserved;
- h) All incidents detrimental to the Environment are investigated, reported and preventative action taken against repetition.

The senior management will be responsible for bringing to the notice of middle management any deficiency observed, and for providing guidance, information and training.

Within the organisation, arrangements will be made to submit environmental reports and discuss environmental matters at Board meetings, Health and Safety and Environmental management meetings help throughout the Company.

Mr. C Lindenbauer is the director responsible for the implementation of this policy.
